MUHAMMAD ABDULLAH NASIR

Frontend Developer | Web Development | AI Automation

Email: abdulah201435@gmail.com
WhatsApp: +92 301 9264318
Location: Faisalabad, Punjab, Pakistan
Response time: Within 24 hours

PROFESSIONAL PROFILE

Motivated student and aspiring web developer with learning interests in frontend development, full-stack web applications, AI automation, and AI agents. Familiar with HTML, CSS, JavaScript, Python, C, n8n, and Make.com. Focused on creating responsive user experiences and useful automation workflows. Interested in suitable remote, freelance, and entry-level opportunities while continuing my studies.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, responsive layouts, UI implementation
Programming	Python, C
Web Development	Frontend development, web application concepts, API and database integration concepts
AI & Automation	n8n, Make.com, workflow automation, AI agent and chatbot concepts

EDUCATION

Intermediate in Computer Science (ICS) — 11th Year
Punjab College, Jhang Road, Faisalabad | Currently studying

Matriculation
Legends School System | BISE Faisalabad | **Marks: 1099 / 1200**

AREAS OF INTEREST

Responsive websites • Full-stack web development • AI-powered automation • AI agents and chatbots • Workflow integrations • User-friendly web interfaces

PROJECTS

Interested in building and improving web development and automation projects. Add verified project titles, live demos, screenshots, and source-code links as they become available.

CAREER OBJECTIVE

To contribute to suitable projects where I can apply my current technical skills, continue learning, and help build useful web experiences and automation solutions. Open to appropriate opportunities in Pakistan and remote teams internationally.

Project links can be added when available. **AB | CV**
